

Pregnant and Parenting Youth & Their Children

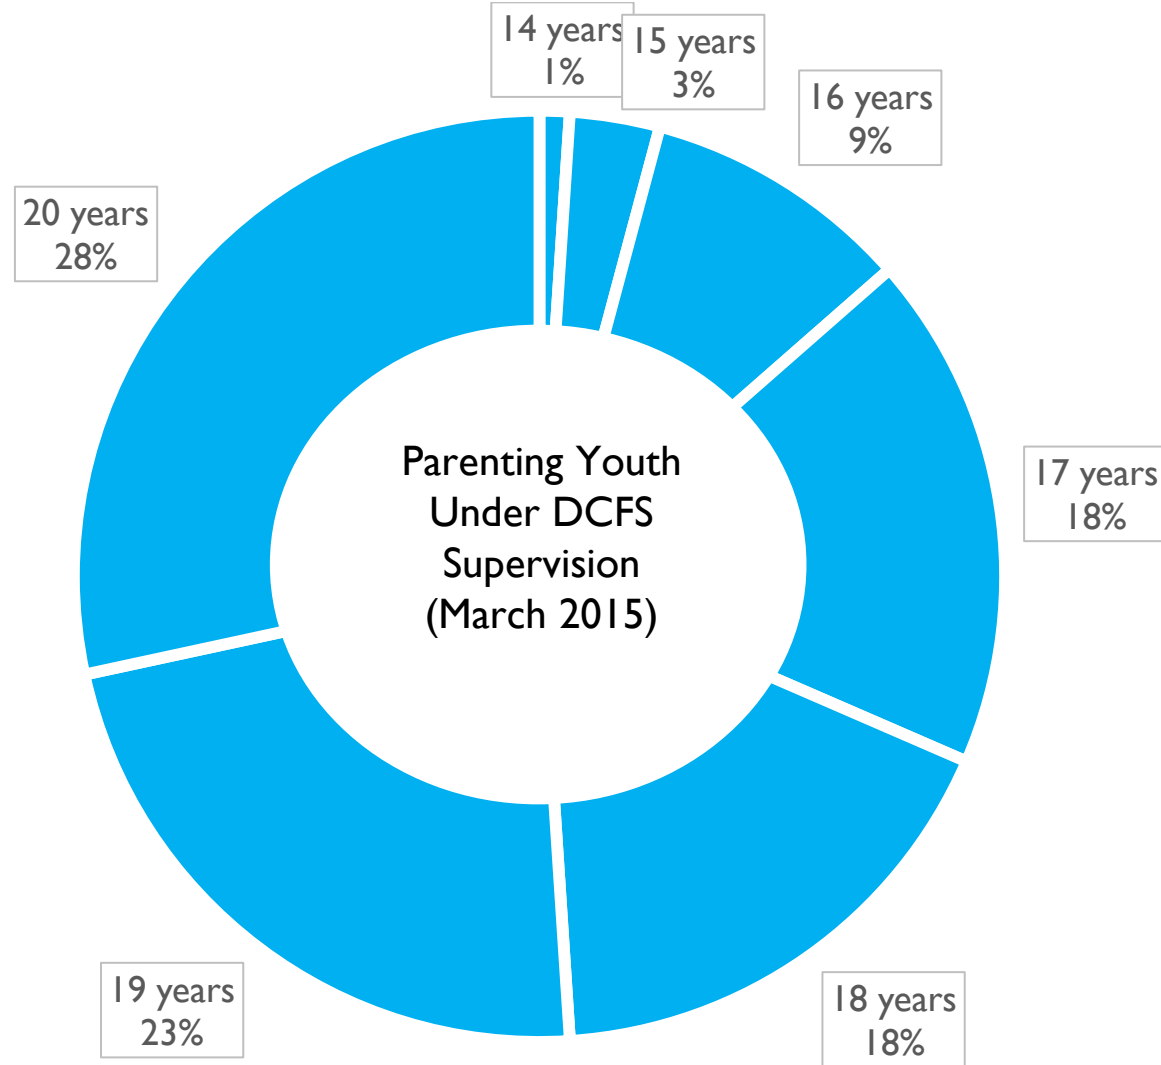

Youth under DCFS Supervision as of March 9, 2015

As of March 9, 2015, there were **384** parenting teens/AB12 youth. **95%** of identified youth are female.

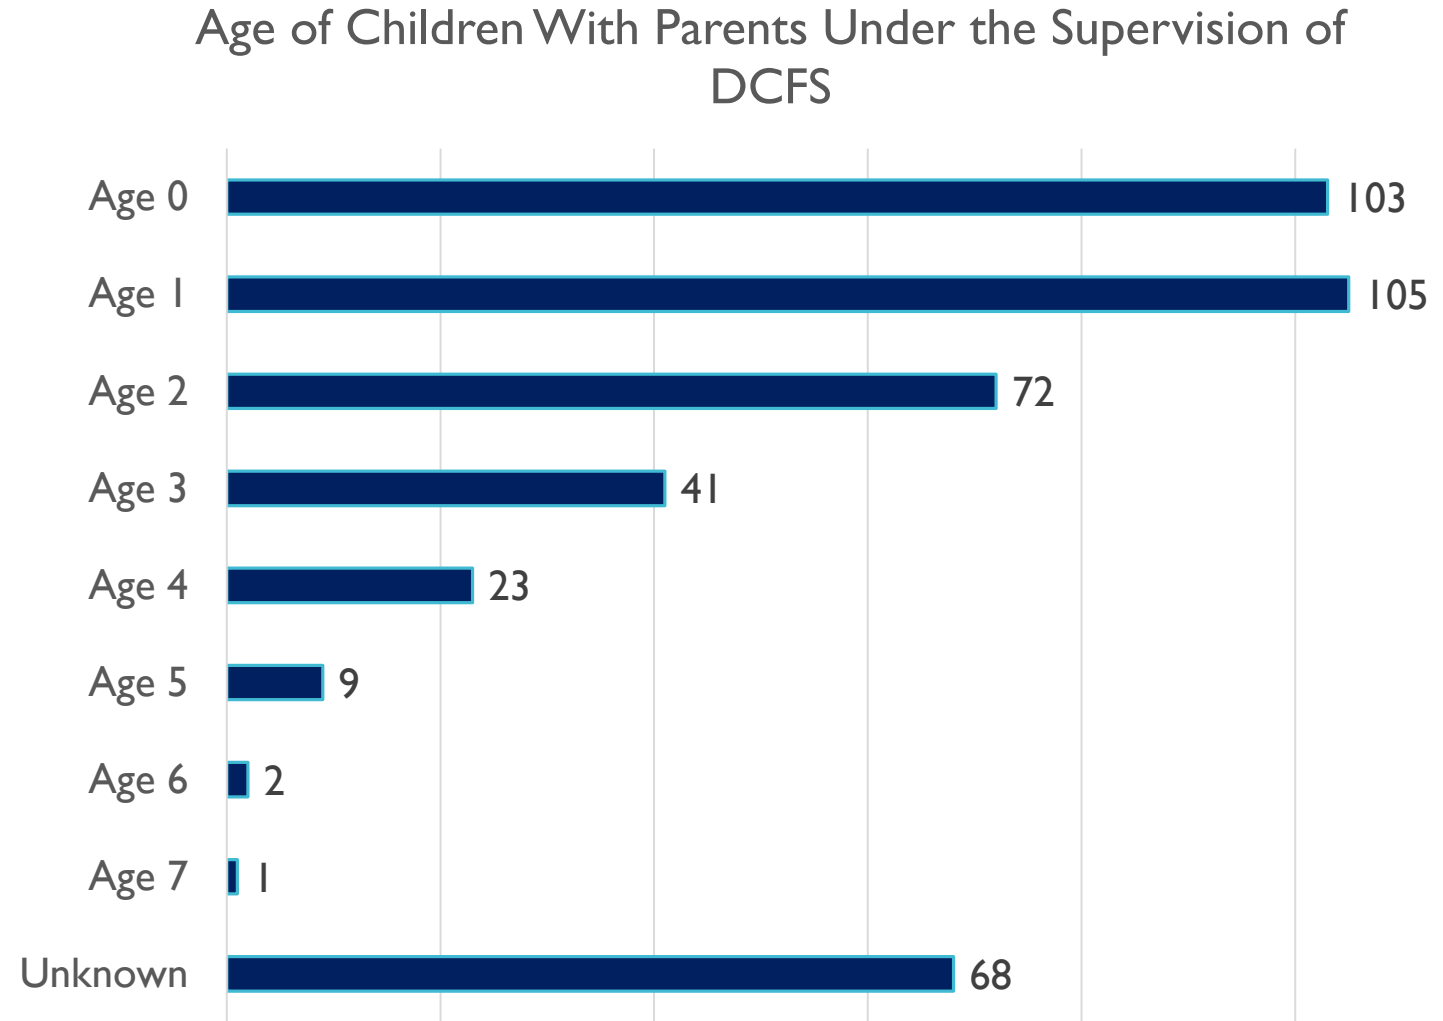

Parenting Youth Under DCFS Supervision

More than $\frac{2}{3}$
of pregnant /
parenting
youth were
non-minors.

There were **424** children with parents under the supervision of DCFS. **25%** (n=107) of children have an open DCFS case. Among those with an open case, **28%** reside at the same address as the mother

** 68 children do not have an age indicated as no identifying information is available. They were identified through the mother-infant supplemental payment field.*

Pregnant Youth Under DCFS Supervision

- As of March 13, 2015, there were 64 DCFS pregnant youth identified through consolidation of responses to October 2014 and February 2015 DCFS Pregnant Teen Questionnaires.
- Of the 64, nine were identified through a questionnaire issued in October 2014. Eight of the nine were enrolled in NFP and one resides out of state.
- Of the 64 currently pregnant youth, 24 (37.5%) are enrolled in NFP.
- When youth are not eligible for NFP, Child Welfare Health Services staff will be working with DCFS and DPH Nurse Managers to help enroll these youth in other home visiting programs whenever possible.
